THE EVOLUTION OF A LEGEND

DRAGON'S LAIR

LIGHT YEARS AH
LASER DISC ANI

*The player controls the actions of Dirk the Daring on his quest through an enchanted castle.

*Quick reflexes and clear thinking are vital for Dirk's survival.

*On his journey, Dirk faces evil creatures and countless dangers.

EAD OF ITS TIME...
MATION NOW

*There is no end to the perils found in the Dragon's Lair.

*The Princess is held captive and only Dirk can set her free.

THE LASER'S EDGE

*DIAGNOSTICS

The Starcom system contains a complete diagnostic package which is enabled by an internal switch. This self-testing feature checks these aspects of your machine:

*General Malfunctions: Any malfunctioning in the machine is located and indicated to you by a written message on the screen.

*ROM and RAM: If your ROM or RAM are faulty, the screen produces a written message indicating which part or parts are malfunctioning.

*Sound: The diagnostic package allows you to hear the sound chip to ensure that it is working.

*Keyboard Input: The Starcom keyboard, including the coin switch, is completely testable.

*Seven Segment Displays: Starcom's seven segment displays are all tested. Every number combination is scrolled, then displayed, to ensure they are all functioning.

*Laser Disc: The laser disc itself is read and tested to make sure it is in perfect working order.

*INTERCHANGEABILITY

*The Starcom unit will come with interchangeable packages, making it substantially less expensive to install a completely new game in your arcade. Therefore, you can build up a library of game packages to be used on your original unit.

*DIMENSIONS

Upright:	Boxed:
72¾" height	77¾" height
25" width	27½" width
30" depth	33" depth
330 lb. weight
